

# Kids' Plates Newsletter

Volume V, Issue 7

May 2005

## Hi Kids' Plates Grantees,

The June 17, 2005 Kids' Plates program end date is fast approaching. You should be near the completion of all program and marketing activities.

Remember...

- All expenditures must be made before the June 17, 2005 deadline. If you are running into any problems fulfilling any of the program objectives or spending down your budget, please contact me right away so we can resolve the situation.

- For all of the marketing activities you conduct, please be sure to provide documentation of these efforts. In your final report, include newspaper clippings, videos, PSAs and/or anything else to show how you have completed all of your marketing requirements... plus its fun to really "see" what you've done.

To close out and complete your Kids' Plates program, you will need to submit the following\* by July 18, 2005:

- Final program report
- Program summary report
- Final fiscal report
- Contractors (Grantee) release form

\*For greater convenience, I will even email these documents to you.

In your final report, please include any pictures, materials developed, etc. from your Kids' Plates funded program.

All documents can also be found in the CD ROM handed out during the September 2005 Kids' Plates meeting.

Please contact me if you have any questions or concerns at [sholland@projects.sdsu.edu](mailto:sholland@projects.sdsu.edu) or 619-594-5039

-Shanna

## Things You Might Like To Know About...

### Kids' Plates Funding for 2005/2006

Online now. Visit [www.CIPPP.org](http://www.CIPPP.org) and follow the prompts to download the RFAs and attachments.

### The Center for Collaborative Planning (CCP)

Promotes health and social justice by providing training and technical assistance, and by connecting people and resources.

CCP supports communities in key areas, such as:

- Asset-based Community Development
- Leadership Development
- Working Collaboratively
- Community Assess and Strategic Planning

Please visit their website for more information on training opportunities, workshop topics, resource centers, CCP programs, and much more at:

[www.connectccp.org](http://www.connectccp.org)
