

Kids' Plates Newsletter

Volume VII, Issue 3

November 2006

Happy Thanksgiving, Kids' Plates Grantees. We wish you a safe and happy holiday with family and friends.

A reminder that for most of you, your first Kids' Plates program invoice is due. Please check the timeline in your scope of work to verify the due date. If you have questions or need help creating your invoice, please talk to Anne. She is always happy to assist you with this task.

Anne can be reached at 619-594-0984 or aainsworth@projects.sdsu.edu.

November 2006 Holiday Schedule:

Our offices close in November for the following holidays:

November 10 for Veterans' Day

November 23-24 for Thanksgiving

Marketing Materials: Incentive/Giveaway Items

We are nearly out of Kids' Plates marketing incentive items and will be ordering more very soon. These incentive items are intended to be used at events where you are carrying out your regular Kids' Plates marketing efforts. If you have events in your scope of work where you will be conducting Kids' Plates marketing activities and would like to request incentive items, please email Anne with your request and the date you will need them. While we will try to meet your needs, we can't guarantee that you will get everything you request. We will, however, try to disperse everything fairly.

Questions, comments, concerns?

Contact Shanna Holland, Kids' Program Manager, 619-594-5039 or sholland@projects.sdsu.edu.

Info that Might Interest You

Insurance Institute for Highway Safety www.iihs.org

This is a good, "at your fingertips" resource for information and data...from helmet laws to graduated licensing... and everything in between. IIHS is an independent, nonprofit, scientific and educational organization dedicated to reducing the losses -deaths, injuries, and property damage- from crashes on the nation's highways. Check it out.

Harborview Injury Prevention and Research Center (HIPRC)

<http://depts.washington.edu/hiprc/index.html>

Another "must have" injury prevention resource. Lots of really good, very relevant information. It also has a "best practices" section for a number of topics, including: Adolescent Suicide, Bicycles, Child Abuse, Child Pedestrians, Choking/Aspiration/Suffocation, Drowning, Falls, Firearms, Fires and Burns, Rehabilitation, Motor Vehicle, Poisoning, Recreational Injuries, and Youth Violence.

Do you know of any upcoming injury control conferences (in or out of CA)? If so, please email any info/links to me at sholland@projects.sdsu.edu. I'm compiling a list.-Thanks!
